	APPROVAL OF STATE ENGINEER					
follo	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the wing limitations and conditions:					
	This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 51265 is issued subject to the terms and conditions imposed in said Permit 51265 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. No perforations shall be put in the production casing from ground level to 100 feet. The total combined duty of water under Permits 51265, 51933, 51935, 51936 and 52339 shall not exceed 144.54 million gallons annually. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this (CONTINUED ON PAGE 2) amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not					
to ex	cceed 0.4 cubic feet per second , but not to exceed 28.91					
,	million gallons annually.
